5. Creativity and Innovation-Based Perspectives

by

1. Adamu Esubalew (PhD)
2. Mohammed Zeinu (M.Sc)

Addis Ababa Science and Technology University

Date: November 12, 2026

Training outlines

- **Accepting the ideas/ perspective of others,**
- **Supporting creativity and innovation efforts,**
- **Promoting creativity and innovation.**

Objectives

The main objective will be encouraging and accepting creativity and innovation-based perspectives.

At the end of this unit, trainees will be able to:

- identify opportunities for creativity and innovation,
- develop a continuous curiosity to realize creativity and innovation, and
- encourage creativity and innovation-based perspectives.

5.Creativity and Innovation-based Perspectives

5.1. Accepting the ideas/perspectives of others

- Encouraging and promoting the understanding of diverse communities and cultural sensitivity to better serve the public and address the needs of various community.
- Developing a positive perspective toward accepting the ideas and perspectives of others requires intentional practice and a commitment to fostering an inclusive environment.
- Accepting the ideas and perspectives of others is essential for effective collaboration, creativity, and innovation.

Cont’d

ⓘ There are **several strategies** to cultivate positive perspectives to accept the ideas and perspectives of others. Some of the key strategies are the followings:

- Practice active listening by focusing entirely on what others say without interrupting when they share their ideas,
- Try to understand the emotions and motivations behind another person's perspective,
- Encourage dialogue by asking open-ended questions that invite others to elaborate on their ideas,

Cont’d

- Stay open-minded and approach discussions with a willingness to consider new information and perspectives,
- Recognize that diverse perspectives can enhance problem-solving and creativity,
- Engage in collaborative efforts where diverse ideas are necessary for success, and
- Acknowledge contributions of others even if you disagree with their ideas and perspectives.

5.2. Supporting creative and innovative efforts

To support creative and innovative efforts within an organization require a strategic approach that fosters a conducive environment to idea generation, experimentation, and implementation.

There are several perspectives and strategies to effectively support creativity and innovation.

Some key perspectives and strategies to effectively support creativity and innovation efforts are the followings:

- Encourage open communication to foster an atmosphere where team members, feel comfortable sharing ideas without fear of criticism,

Cont’d

- Collaborate with other professionals with diverse backgrounds, skills, and perspectives to support creative and innovative ideas,
- Allocate resources specifically for creative and innovative projects, and dedicate time to work on creative projects outside regular responsibilities,
- Participate in programs that allow professionals to pitch creative and innovative ideas and receive mentorship or resources, and
- Cultivate a mindset that values learning from various perspectives.

5.3. Promoting creativity and innovation

Promoting creativity and innovation is essential for staying competitive, solving complex problems, and adapting to changing market conditions.

Some of the strategies that facilitate promotion of creativity and innovation are the followings:

- Cultivate a supportive culture (encourage open communication, celebrate diversity and view failures as learning opportunities rather than setbacks),
- Provide resources and tools (access to learning, and innovation tools),
- Foster collaboration (cross-functional teams and brainstorming sessions),

Cont’d

- Encourage experimentation (safe spaces for innovation, and prototyping and testing),
- Set clear goals and challenges (innovation goals and challenge assumptions),
- Recognize and reward creativity (celebrate achievements and incentives for innovation), and
- Encourage continuous learning (promote lifelong learning and implement mechanisms for regular feedback).

✍ Implementing promotion strategies creates a vibrant culture of creativity and innovation.

Activity 5.1: Group discussion

Dear trainees, please discuss in groups on the following discussion points, and present your reflections.

1. Share your experiences how you to support creative and innovative efforts in your organization.
2. Identify the challenges to accept the ideas and perspectives of others.
3. Explain how to develop positive perspectives toward accepting the ideas and perspectives of others.
4. Describe the challenges to promote creativity and innovation in government organizations.
5. Propose some strategies that can support creativity and innovation efforts.

Thank You!
